

To the Honorable City
Attorneys,

February 1, 2022

I am requesting your help to act against the defendant responsible for harming me on the night of October 18th into the early morning of October 19th, 2019. It is in the public's interest to file charges based on evidence gathered and submitted to you by Detective Ozaeta from Miami Beach Police. I implore you to see that coming forward as a victim of sexual battery is frightening, especially in light of Commissioner Steven Meiner's recent proposal to expand the prosecution team so that fewer battery crimes will be dismissed without charges.

Truthfully, I never thought I would muster enough courage to report to local authorities. I have deeply rooted fears of the criminal investigation process and potential retaliation for breaching a non-disclosure agreement that I believe was only executed to conceal details of a crime. Only after attending two in-person trauma and healing intensives, plus clocking in 180 hours of independent counseling, I have uncovered my voice. The burden I carry for the potential of future victims and overall public safety outweighs the fear of coming forward and facing a legal system that often dehumanizes victims. I believe I have gathered enough evidence across four categories: circumstantial, demonstrative, digital, and hearsay which eventually grabbed the attention of Detective Ozaeta and Sargent Ramos.

Over the past 12 years I have grown to love visiting the city of Miami, FL. My older sister served in the military and decided to relocate to Miami afterwards to earn her college degree - this became a great reason for me to visit on regular occasion. Plenty to explore, beautiful beaches and people in a melting pot of cultures. In 2017 it was reported that over 15 million tourists visited Miami which added an estimated \$2 billion to your economy - a significant incentive to keep tourists safe in my opinion. Prior to October 2019, I never questioned my safety, nor did I have any reason to question or doubt local law enforcement.

Since I feel differently today, I have been encouraged to share my personal concerns regarding Miami-Dade law enforcement:

· May 2021, I gathered the courage to call local authorities with the intent of pressing criminal charges based on the substantial amount of evidence I had collected. I was shocked at how unprofessional and hostile the intake process was over the phone because of the style and manner in which questions were asked. I quickly realized that to be believed as a legitimate allegation I would need to educate this individual on the affects of trauma on the human brain (especially when alcohol was involved). It is my belief that a victim should not carry the responsibility to inform law enforcement on the psychological reasons for a victim's delayed reporting when they are dealing with their own shame and self-blame.

It took a dozen phone calls over the following 5 months before I discovered no one was looking into this report since it had been filed as "Information-Only".

November 2021, Detective Ozaeta was assigned to my case. I believe she is doing a remarkable job gathering details and evidence to present my case to the Prosecutor's office.

January 10, 2022, the evening before our scheduled in-person meeting with Detective Ozaeta we had a disheartening conversation with an officer outside a grocery store in the South Beach area. This officer had been with Miami-Dade Police for roughly 30 years after enlisting in the Marines for 4 years. This officer has a daughter of his own, roughly the same age as me. I believe it is imperative that I share a few things said by this officer because it further exposes a mindset that makes reporting sexual battery cases extremely difficult. These quotes came after I asked him how often he believed acquaintance rape occurred in Miami: "Acquaintance rape happens daily." "Young women need to cover up more to make themselves less of a target. If a man sees it [skin] they think they can have it or buy it. Women provoke men by what they're wearing." "The only way a woman could be raped is if a gun is being held to her head."

After this experience I couldn't agree more with Commissioner Steven Meiner's proposal to expand the prosecution team to enforce more consequences otherwise local law enforcement indirectly implies to the community that you can in fact commit a soul crushing crime like this and be let off the hook with little to no consequence.

While I hope there will be accountability and justice for my case, I fear for your local community and tourists regarding sexual predators like the defendant. I believe sexual predators are the most dangerous and leave deep wounding scars on their victims. Physicians and Psychologists are now of the understanding that the traumatic symptoms of PTSD that victims of sex crimes experience are comparable to the experiences of PTSD suffered by war Veterans.

As part of my preparation, I have connected with a victim of Harvey Weinstein's to better understand how to navigate the legal process as a victim. It's my hope and prayer that your office, as part of this investigation, can help facilitate the termination of my NDA so I can move forward without fear of retaliation.

I'm thankful a mutual friend connected me with Gretchen Carlson who journeyed through a very public case similar to mine involving an NDA with Fox News. She recently started a non-profit to help terminate Non-Disclosure Agreements in cases like mine where women are muzzled and silenced. I do feel it would be more powerful and honorable if the government of Florida proactively terminated/voided my NDA, given my experiences thus far.

We need to lead by example and set a precedent. A Non-disclosure Agreement should not be enforced (if) the agreement conceals details of misconduct, harassment, or sex crimes. These agreements truthfully

should be banned in non-corporate situations altogether. It's my hope the government of Florida will support me. Thank you for your time and consideration for the help I am requesting.

Sincerely,

Exhibit J-10

Timeline of Significant Events – McNae Fitzgerald case

2019:

July	Ronda accompanied Will McNae to a work event put on by Mike Fitzgerald, hosted by SoftwareONE in Bellevue, WA. At the time, Fitzgerald was the CIO of a multi-national global services company. Will supported this organization as their US Technical Strategist.
	Fitzgerald began communicating to the McNae's his emotionally bonding lies including father, children, relationships, etc. (see PPT for full list)
August	Ronda & Will met Fitzgerald and girlfriend, Patrice, in Tulum, Mexico for a weekend trip that he had asked them to join. Mike specifically requested the McNaes not discuss his deceased father nor son with Patrice. Fitzgerald offered to help pay for the McNaes to fly to Tulum – this did not occur.
	Fitzgerald writes a substantial letter of recommendation to Will's manager which directly influences a promotion.
September	Fitzgerald travels to Seattle with his dog and stays as a guest at the McNae's home.
October	Fitzgerald invited and paid travel & accommodations for the McNaes (Ronda, Will, Ella, Liam) to join he and Patrice in Miami for a celebratory weekend October 18-21. Fitzgerald wanted to celebrate a major milestone in his work career with friends as it was very important to him.
	Due to Patrice cancelling last minute, Mr. McNae asked Ronda to support the work relationship by attending the IPO dinner since he couldn't get on an earlier flight to FL. Ronda found a trusted sitter to care for Ella McNae so Ronda could attend Fitzgerald's Friday night IPO celebration dinner at Baoli. Ronda did not give consent to her hair being pulled aggressively or kissed by Fitzgerald, nor did she give consent for sex. Ronda ran and hid in South Beach for 1.5 hours shortly after midnight while Fitzgerald tried to locate her. (Verizon call log)
	Fitzgerald began communicating threats of getting Will fired from his job at Microsoft if Ronda didn't keep the Miami incident a secret. Fitzgerald claimed it was all a consensual affair but would not share details with Ronda.
	Manipulation by Fitzgerald begins to force Ronda's cooperation daily over phone calls/facetime/text.
November	
	Ronda flew to Sacramento to watch her niece's soccer game, Nov 1. Ticket purchased early October.
	Fitzgerald communicated to Ronda he wished to speak with her and changed his work-related travel plans to meet her in San Francisco on Nov 2.
	Fitzgerald booked a single hotel room with one bed. Fitzgerald has testified they were not planning on having sex prior to arrival but his hotel bookings do not reflect this.
	There are no photos of Fitzgerald and Ronda together as one might expect if this was in fact a consensual affair without power differential and coercive control (i.e. Selfie, Smiling, Holding hands, etc).
	Ronda did not give consent to sodomy; lab results from Evergreen hospital prove sex continued after she said "no".
	Fitzgerald continued to communicate the fear of Will's job if Ronda were to speak to anyone. He also accelerated his love-bombing tactics including buying a home on Lake Washington, getting a puppy, new car for Ronda, and moving to Seattle for a relationship. Fitzgerald was going to speak with their CEO about this move.
	Fitzgerald received an email regarding tax owed on his multi-million-dollar IPO earnings.
	The pressure to stay silent plus recovering from an infection caused by Fitzgerald, Ronda became suicidal wanting to end her life November 14 th 2019.

December	Fitzgerald met with Will & Ronda separately to “talk” while in Seattle for work. Fitzgerald incorrectly interprets Will’s acts of kindness and forgiveness while they talk. Fitzgerald gives Will a book on Alzheimer’s disease which creates more feelings of sorrow for his alleged deceased father.
	Fitzgerald continues to demand Ronda stay quiet until after January 1.
	Ronda travels to Nashville, TN to attend the one-week Trauma and Healing Intensive Workshop at Onsite in Nashville, TN. Ronda handed in her phone which limited distraction and influence. Ronda began piecing things together while attending lectures led by the Onsite staff; abuse cycles, trauma, and varying degrees of psychopathy while understanding more on victimology

2020:

January 2020	Ronda began sharing more details of harm from the incident in Miami and San Francisco with Will McNae.
	Notes were found in Ronda’s journals and notes from her time at the Trauma Intensive supporting lack of consent and manipulation
February 2020	Ronda contacts Yelany de Varona (former girlfriend, but current wife) and begins to fact-check Fitzgerald’s traumatic life events and timeline. 1,000’s of communications over the course of February uncovering lies & manipulation by Fitzgerald. Yelany suggests ways to gain admission from Fitzgerald about certain details from Miami. Yelany plays along with the pregnancy lie in an effort to gain admission and even suggests ways to request money from Fitzgerald. Yelany also warns Ronda multiple times about his personality and revengeful nature if betrayed.
	Yelany gains admission from Fitzgerald about the night in Miami when he texts “ <i>I didn’t do it on purpose I was drunk and out of control. And was on a rampage.</i> ”
	Ronda begins therapy sessions with Dr. Sarah Dellinger 5 days a week and is finally able to acknowledge the night in Miami was sexual assault. Months later in Sarah’s office Ronda is able to acknowledge San Francisco as forced, non-consensual sodomy.
	Ronda texted Detective Ridge with Miami Police regarding the assault and how to report (in evidence)
March	
	Will reports Miami incident to his manager at Microsoft starting a process with his Leadership Team, HR, Employee Relations, Global HR, and an outside legal firm (Arent Fox). Will is told by Microsoft they have “zero liability” to support their employee since the incident did not occur to the employee and it did not happen during work hours. The internal investigation into Will’s conduct continued into 2022 and was never officially closed or resolved.
	Will is removed from working with the SoftwareONE account team.
	Fitzgerald wire transferred \$1,500 to help pay for counseling costs (February 2020 invoice). Agreed to pay \$1,500 for 3 months, then pay \$2,400 for the following 12 months.
April	
	Fitzgerald communicated that \$1,500 was set to wire transfer on April 1. That did not happen.
June	A formal counseling session plan was created and shared with Fitzgerald showing estimated costs and projected visits over a 3 year period.
	Settlement Agreement signed after two months of back & forth communications with Fitzgerald. See motions filed in Civil Lawsuit for insights.

2021:

February	Ronda first communicates Miami incident to an officer in Miami PD; he instructs to provide a statement with Miami Beach PD.
May	Ronda has the courage to call Miami Beach PD and provide victim statement. Report filed in their system as "information-only" and no action is taken.
October	To move on, Ronda jumps back into commercial work. Day 2 on set of a commercial, Ronda learns she will be on set with Bill Gates which prompted a panic attack/nervous breakdown. Ronda officially acknowledges the sexual assault/forced sodomy that took place in San Francisco, CA with her counselor; Sarah Dellinger. Within a couple days, Ronda filed a police report with Detective Slade in Redmond, WA to send over to SFPD to begin the investigation
November	Will steps away from work during his 8-week Short-term Disability Leave.
December	Detective Ozaeta is formally assigned to the case but is unavailable to speak until January.

2022:

January	Ronda & Will fly to Miami for a week to be available to meet Det Ozaeta and provide victim statements. Printed evidence is hand delivered and entered in case file.
February	Ronda speaks with San Francisco PD and experiences horrific, victim-shaming treatment from officers in SVU. Ronda reports Lieutenant Tim O' Connor and Sargent Rodriguez to the Department of Police Accountability. Ronda was asked to sign a NDA which Ronda declined.
April	The McNae family drives to San Francisco to hand-deliver evidence and new lab results to SVU. No one in SVU was willing to meet us. Ronda provided a supplemental victim statement to Officer Dito in the North Beach PD station. No follow up from SVU as a result. Will meets with global Employee Relations as a result of learning the investigation into his conduct from 2019 was still ongoing and could potentially harm his employment. A formal presentation and explanation was provided to multiple stakeholders. Microsoft continued to investigate Will's policy violations considering accepting travel & gifts from Fitzgerald.
July	Fitzgerald sues Ronda for Breach of Contract in Southern District of Florida Federal Court after Ronda sent police reports to Fitzgerald and his company with a letter requesting the NDA be terminated for her healing journey. Both SoftwareOne and Microsoft requested police reports when they were filed, Ronda was doing as she was requested.
December	Fitzgerald was let go from SoftwareONE due to the internal investigation and findings (details are confidential). Fitzgerald has two known companies he has invested in and started since.

Ronda McNae	rondamcnae@gmail.co m	3/2/2022 10:15 Good morning! My case in SF is at a stand still. The Sargent/detective assigned to my case is now under investigation along with his superior because of their conduct and how they treated me. I will likely have a new detective assigned, just waiting.

Ronda McNae	rondamcnae@gmail.co m	3/22/2022 12:44 Lieutenant Tim O'Connor stated in a conversation I recorded on March 14th. O'Connor was reading a note Sargent Rodriguez left on my report before being "transferred" out of the unit

Detective Ozaeta melanieozaeta@miami
beachfl.gov 3/22/2022 12:46 Ok I have the exact date and time , just wanted to make sure it matched
that's all

Detective Ozaeta melanieozaeta@miami
beachfl.gov 3/22/2022 12:48 Just an FYI , it is illegal to record a conversation without consent. It's a two
party consent . There is a law enforcement exception

Ronda McNaes m 3/22/2022 12:49 I'm fully aware, I disclosed this to the department of police accountability.

Detective Ozaeta melanieozaeta@miami
beachfl.gov 3/22/2022 12:49 That is our laws in the state of Florida

Detective Ozaeta melanieozaeta@miami
beachfl.gov 3/22/2022 12:49 Not sure how Cali works
So if you call me and record me , you are breaking the law, but if I call u and I
record you since I am a law enforcement officer conducting an investigation,

Detective Ozaeta melanieozaeta@miami
beachfl.gov 3/22/2022 12:51 I am exempt from that .

Detective Ozaeta melanieozaeta@miami
beachfl.gov 3/22/2022 12:51 Just FYI

Detective Ozaeta melanieozaeta@miami
beachfl.gov 3/22/2022 12:51 If you do record you must disclose

Ronda McNaes m 3/22/2022 12:52 Same - wa and ca are two party consent. I let the department of police
accountability and the district attorney's office know I felt I had no other
option than to record due to the mistreatment on the phone. I had witnesses

I'm in the process of writing an open letter to SFPD but truly to all law enforcement. Please consider listening to this book. It's very enlightening regarding consent.

In short, I know in my marrow SF wasn't consensual sex. I realize you see through the legal perspective lens supported with evidence however at the end of the day... I was there, my body is/was the crime scene. With all do respect, would you please do me a favor and never refer to SF as consensual.

I didn't disclose every last detail with you regarding SF since it wasn't your jurisdiction. At the end of all of this, if all that comes from this battle... is my daughter walking into this world with more courage, grit, and bravery... fully understanding consent ... then I've done my job. If I can also help enlighten law enforcement with the brutal effects of trauma... or even unknowingly inspire you to see cases like mine from the victims perspective...and why using the word "consensual sex" causes a visceral reaction since I've adamantly stated it wasn't consensual. Not having enough evidence to support a crime is another story. I don't know what the charges would be in SF but I know it must be looked into and considered. Again, I appreciate you and I'm thankful you're working on my case. I have deep admiration for you

The Psychology Of A Gentleman Rapist

A gentleman rapist thinks women "play hard-to-get," don't really mean "No!" and crying is merely part of a woman's act. Often, they don't think of forced sex as rape and may actually believe you're both simply having a good time "making love." During the sexual attack, he acts selfish and believes that his victim is enjoying what is happening. He may even act as if he is in a relationship with his victim, and so is slightly delusional. Afterward, he may again act kindly toward the victim as though the act of rape never took place. He often records the deed in some way or takes some personal belonging from his victim. After the rape, this type of rapist sometimes tries to contact the victim. The "gentleman rapist" attacks again in the period of 7-15 days, and he is the most common type of rapist.

Hi Will,

I took time to write you because I tried to write something many times and couldn't find the words. So I hid and didn't say anything. I know that is the worst thing to do but truth must be told in all vulnerability. I'm terrible with words and I'm terrible with being vulnerable. I'm sorry for any pain I've caused you at all, I didn't intentionally pursue anything. It almost just happened and I feel like I lost control. No excuses at all, I was in the wrong and I take full responsibility for that. But I don't think any words that I can write can relieve any of the pain. I would love to support you both in any way I can to help do something to relieve the pain for you both. I'm trying to learn about myself from this situation, but again: truth be told. I feel empty and sorrowful and I'm hiding my hurt from the world and people who care for me and putting on a brave face.

I don't expect anything from you, ever. I said I would stay out of your way and I am trying. I don't want to fill either of you with anymore pain and sorrow.

I will support my responsibilities. I've been very open and vulnerable with Ronda and I will continue to be. I will reiterate that I want you, Ronda and your family to be the happiest that you can be. That will never include me... I will not interfere or both you both.

If you want to sit with me so I can apologize I will do that. But pls forgive my state while I do it because it's not easy for me to be vulnerable. I will leave that decision to you.

Love, and open apologies

Yes I ask my self every day how I deal with the scenario now. I can't comfort Ronda or be close to her because I promised you I wouldn't. I can't open up to you because I don't know how to do it. When I saw you I broke down in pieces and had to walk away.

I stopped what was happening because I loved you both as some of the people that had given me an opportunity to be my self more than anyone had before. And yes I lost my responsibility to you, but as soon as I spoke to you, and I knew that you knew, I had no way of overcoming it in my mind. So did I want to stop talking to Ronda and make her feel terrible? No! I wanted to comfort you both but I don't know how to do that.

Many patterns in my life have followed similar things to this. I can make a real mess for myself, so I usually stay so distant and don't get involved

Detective Ozaeta

I am looking for time stamps and lost text messages . And comparing all new evidence

9:03 PM

Ronda McNae

The phone is new hardware however it's the same account and information transferred over. Apple and Verizon both confirmed this. The minor technicality doesn't and shouldn't rule out the evidence I have. I will confirm with Special Agent Rinek and again with apple tomorrow.

9:02 PM

Detective Ozaeta

My question is , the phone you have now Is this the same phone from 2019 ?

8:56 PM

Detective Ozaeta

You told me you have switched phones since then correct?

8:53 PM

Detective Ozaeta

Thank you

Verizon is mailing me a copy of my bill statements from October 2019-January 2020. It will include call logs. Better then nothing

8:53 PM

Ronda McNae

Only possible with a phone dump which is why I pressed on this issue in previous texts/emails with you

8:52 PM

Detective Ozaeta

Nobody is ruling out evidence

9:03 PM

Ronda McNae

I still have the conversations on my phone. I do not have any texts from October 2019-January 2020. I didn't start saving everything until January/February 2020

I would never agree to buttsex since I had a hemorrhoidectomy years ago. This lab report shows "e coli" was present in my vagina. Now I ~~100~~ believe San Francisco has enough to investigate.

3:08 PM

Ronda McNae

I swore to you it wasn't consensual and now I have medical records to prove MF penetrated my anus. I had been using the term he "tried" however I know how the words I use matter.

7:55 AM

Is this on your current phone ?

7:52 AM

Detective Ozaeta

Good Morning, they can make a public records request.

7:48 AM

Ronda McNae

As I have communicated previously, I do not have text messages saved prior to January 2020. I happened to have a thread with Will, Mike, and I before that date.

I also have a full conversation with Yelany and she provides context to some snapshots conversations she had with Mike.

10:34 AM

I've been working with a friend to try and recover old messages. It wasn't until January 2020 I switched my phone setting to save all texts. In past, it was set to delete after 60 days.

Ronda McNae

I know ❤️ just wanted to share 😊

11:02 AM

Another helpful explanation regarding my case but also helpful for other sexual assault cases you work on

I'm in the process of writing an open letter to SFPD but truly to all law enforcement. Please consider listening to this book. It's very enlightening regarding consent.

In short, I know in my marrow SF wasn't consensual sex. I realize you see through the legal perspective lens supported with evidence however at the end of the day... I was there, my body is/ was the crime scene. With all do respect, would you please do me a favor and never refer to SF as consensual.

I didn't disclose every last detail with you regarding SF since it wasn't your jurisdiction. At the end of all of this, if all that comes from this battle... is my daughter walking into this world with more courage, grit, and bravery... fully understanding consent ... then I've done my job. If I can also help enlighten law enforcement with the brutal effects of trauma... or even unknowingly inspire you to see cases like mine from the victims perspective...and why using the word "consensual sex" causes a visceral reaction since I've adamantly stated it wasn't consensual. Not having enough evidence to support a crime is another story. I don't know what the charges would be in SF but I know it must be looked into and considered. Again, I appreciate you and I'm thankful you're working on my case. I have deep admiration for you ❤

That is our laws in the state of Florida

12:49 PM

Detective Ozaeta

Ok I have the exact date and time , just wanted to make sure it
matched that's all

12:46 PM

Detective Ozaeta

Ronda what was the date the detective stated we spoke

12:39 PM

Ronda McNae

He wanted to check a box and move on. That was clear as day.

12:56 PM

Ronda McNae

Police accountability said officers are still required to ask
permission to record especially if it's a victim statement

12:53 PM

Detective Ozaeta

If you do record you must disclose

12:51 PM

Detective Ozaeta

Not sure how Cali works

12:49 PM

Detective Ozaeta

Just an FYI , it is illegal to record a conversation without consent.
It's a two party consent . There is a law enforcement exception

12:48 PM

Ronda McNae

March 8th

12:42 PM

Detective Ozaeta

I would seek clarification

12:53 PM

Ronda McNae

Same - wa and ca are two party consent. I let the department of
police accountability and the district attorney's office know I felt I
had no other option than to record due to the mistreatment on the
phone. I had witnesses too

12:52 PM

Detective Ozaeta

So if you call me and record me , you are breaking the law, but if I call u and I record you since I am a law enforcement officer conducting an investigation, I am exempt from that .

12:51 PM

Ronda McNae

I'm fully aware, I disclosed this to the department of police accountability.

12:49 PM

Ronda McNae

Lieutenant Tim O'Connor stated in a conversation I recorded on March 14th. O'Connor was reading a note Sargent Rodriguez left on my report before being "transferred" out of the unit

12:44 PM

Ronda McNae

Either way the detective in sf did not allow me to share everything regarding the sf crime- violating my victims rights

12:55 PM

Detective Ozaeta

Well if it's an investigation he would be exempt

2:22 PM

Hi, do you have a quick minute?

Wednesday, March 2, 2022

Ronda McNae

Good morning! My case in SF is at a stand still. The Sargent/ detective assigned to my case is now under investigation along with his superior because of their conduct and how they treated me. I will likely have a new detective assigned, just waiting.

10:15 AM

Ronda McNae

The SF district attorney's officer is mortified. So there are others helping move the investigation along. Just wanted to give you a heads up

10:17 AM

Sex crimes - officer Keesor

He hasn't assigned a detective but said it should happen soon!

Ronda McNae

Sargent Keesor works in special victim crimes. I'm glad I got to speak with him.

1:10 PM

Ronda McNae

A female who called while I was with up my kids. My only priority was to get a case number. I will call today and see if a detective is assigned and I'll let you know.

6:53 AM

Detective Ozaeta

Pass me his contact information please

4:54 PM

Detective Ozaeta

Ok

6:54 AM

Ronda McNae

Ok scratch that. Sargent Keesor said an SFPD officer has already signed off on my report. Next is a superior officer.... Then Officer Kessor will assign a detective to investigate and I'm given the choice to prosecute/file charges. He was shocked when I replied with "I have a choice?" I assumed I don't. He said yes, you get to decide if you want to be apart of the court process or have a paper trail. I said definitely court ... I want to file charges

1:08 PM

Ronda McNae

The district attorney's office in SF needed the case number for legal aid purposes

6:54 AM

And do you have a contact phone number

12:53 PM

Ronda McNae

Good morning, wanted to let you know I've spoken with the district attorneys office in SF. Victim services have been a huge help! They communicated the possible need for FBI (again) due to a couple jurisdictions and the defendant not being a US citizen. Thankful to have the ball rolling.

8:29 AM

The SFPD sent me the case number 199-005-331.

12:06 PM

She communicated on a FaceTime call she knew she wasn't coming early October. Perhaps it would be best for you to hear it directly from her although the text I have proves she wasn't coming but I don't know if that's enough

10:40 PM

Detective Ozaeta

Ronda McNae

Good Morning! I wanted to share, I'm minutes away from meeting a woman who has become a hero: Cathy ... she wrote a book with another hero of mine Dr. Dan Allender. Please at some point give her book a read. One day I hope to get her book or write my own book that is a requirement for law enforcement to read. Childhood trauma plagues so many women and often puts them right in harms way over and over again until they learn to stand up for themselves and name what happened. I can't wait till this investigation/case is over so I can get to know you without the uniform. I told the chief of police in seattle, once I have worked through my pain... I'm going to find a place to be involved with law enforcement... even as a third party advocate for victims. I hope you are well! 🌟

I know it's early evening there. I just wanted to let you know I'm retaining a lawyer in Miami and signed my initial agreement.

4:24 PM

We will fight the confidentiality agreement due to Public Policy/ Public Hazard. With her experience in federal court working alongside a judge for 2 years, I'm confident I'll be in good hands thanks to a friends referral. She's encouraging me to retain legal representation for the criminal case against MF so that may be happening soon. Wanted to send over a heads up.

R.Diaz Miami Dade Police Department 1/10/22
Marines 4 years. A year after being out, he applied to be a officer for Miami. 31 years. Worked homicide for 14 years. Divorced 5 years ago. Father of two kids, daughter is age 32. Son lives in NY. No grandkids.

In getting to know the officer, I asked about his life. We chatted about kids. Marines and where he traveled. Then we started talking about his family. He shared a story about his wife asking if he has lost his humanity. They witnessed (as a family) a head on collision where three teens were dismembered. While speaking to his wife who sat in the car with the kids, she noticed his lack of emotion.

He was so dismayed by humanity, no one can believe what humans are capable of doing. He gave an example of finding a 2 day old baby in the microwave. Parents had placed the baby inside to quiet the crying. Autopsy showed the baby had not eaten since leaving the hospital due to parent's crack-cocaine addiction. They had been doing drugs since leaving the hospital.

We asked him about acquaintance rape and how frequently it occurs in Miami. He sorta laughed and said he thought it happened "daily" it was that common. He went on to share his opinion on what he's seen with young females today. When you wear basically "nothing" and go to these clubs and parties you're provoking men. He shared an analogy similar to dangling a chicken in front of an alligator and when the bit, you blame the alligator. He shared that he told his daughter a warning in which "if a man can see it [skin] he'll think he can buy it". Young people today (women) need to cover up more to keep themselves safer and less of a target. Then he went on to share his opinion on women capable of fighting back in the midst of a rape. I said, well that's easy for you to say when you're a big guy. (He clearly wasn't taking into account past trauma, childhood abuse, other intimidation tactics) He said the only way a women would be raped is if a gun was being held to her head. (Wow, if he only knew the person he was speaking too and the life I've survived)

He also shared that he's seen multiple examples of domestic abuse being used by women as a way to get back at men. Harming themselves and then blaming the man. He shared the example of his friend who's wife had cut herself while the husband was asleep. The cops showed up and arrested him only to have the charges dismissed because his defense attorney pointed out there was no blood anywhere on his body or clothing. we

We shared a brief overview of why we were in Miami due to a prior sexual assault/rape case. He looked at me and asked if I had "had a conversation with this guy?". Stood up and walked closely to Will speaking more quietly....You need to pay him a visit...More skeletons in Biscayne Bay than all of the cemeteries in Miami. People go missing all the time around here. More than 200 homicides in Miami a year. That was how the conversation ended.
